

ENVIRONMENTAL POLICY STATEMENT

Introduction

Global environmental harm to our planet is on the increase. Our positive contribution is to reduce this harm, by setting ourselves commercially sound objectives and implementing management controls that meet the requirements of BS EN ISO 14001:2004 - Environmental Management Systems.

To meet this objective we will provide a commitment to:

- Prevent pollution.
- Continually improve our environmental performance.
- Comply with applicable legal and other requirements relative to our business activities.
- Reviewing our measurable objectives and associated targets.
- Provide the necessary resources to implement this policy.
- Keep this policy under review, to reflect any changing conditions.
- Communicate this policy to our employees and others who help us in our business.

The Company will also:

Prioritise the reduction of its current significant impacts:

- Reduce waste sent to landfill by increased re-use of recycling
- Reduce fuel used for business travel and associated CO²emission
- Reduce fuel used for hired in plant and associated CO² emission
- Minimise noise/dust/vibration on the local environment

Company Managers

Have the responsibility for implementation and monitoring this policy, together with training and raising general awareness to our employees.

All Employees

The success of this policy rests with the commitment of all employees, to ensure our management procedures are effectively carried out.

It is a condition of employment for all employees to comply with this environmental policy, procedures, or specific instruction applicable to their designated responsibilities and duties.

The arrangements for putting this policy into practice are detailed in our Management Procedures Manual
